VERY serious news, says the N.-C. D. Notes, has again been received from II where matters appear to be going from bad to worse. Between two and three thousand Chinese soldiers have mutinied, and murdered three of their own garrison-officers. Prospects are discouraging.

Ir will be well to await further details ere pronouncing definitely upon the reported assumption of a protectorate by Russia over the Kingdom of Corea. That it is very serious move, if true, cannot for a moment be doubted. But it goes so completely in the face of everything we have hitherto believed of the Hermit Kingdom and of its Foreign Advisers, that we mus receive the news with caution. Our Cor respondent writing from Tientain, with full belief in the Russian protectorate describes the effect of the news upon the Chinese anthorities at Peking, and speaks of warlike preparations on the Mongolian, Manchuria and other Northern borders of the Empire. Russian Protectorate of Korea.

(From Our Correspondent.) Tientsin, June 28. On Monday last the Chinese Governnent, to its great perturbation, received news to the effect that, by the assistance of Mr von Möllendorff, Mr A. Speier, 1st Secretary of the Russian Legation in Tokio, who went from Yokohama to Chemulpo in

the corvette Opritchnik, has made a treaty

between Russia and Korea. The treaty is in six articles. One article is that Russia guarantees the integrity of Korea, that is to say, Russia takes Korea under her protectorate, and ousts China from her old suzerainty. To Japan the new departure will be most offensive and alarming, as the Korean coast has at least three magnificent harbours on the East side, looking on to Japan. It is also, tentatively, a step against England. Now that Gladstone, Derby, Northbrook, the babblers and the imbeciles, are—goodness be thanked !--out of office, some counter-move will be taken. The time, too, as you will see, is favorable.

THE RUSSO-KOREAN TREATY. The N.-C. D. News, of the 30th ultimo.

A Treaty between Russia and Corea has

lately been negotiated, chiefly through the agency of Herr von Möllendorff. It cousists of six articles, and although the specific nature of these is as yet unknown, their probable scope has been suggested to us. It is evident that the aim of Russia has been to obtain a footing in Corea and influence in Corean affairs to balance the recent acquisition of Port Hamilton by Great Britain. That important island, it appears, was purchased by Great Britain, and this has excited the jealousy of the Cabinet of St. Petersburg. What Herr von Möllendorff is said to have done is to hand over Corea bound hand and foot to Russia. By what pressure this has been accomplished, time will probably reveal. in the meantime it seem as if he had sacrificed the interest of the country in whose service he is, and caused her rulers to show the greatest ingratitude to China and Japan. This will be apparent when the following, which have been suggested to us as the most important provisions of the Treaty, a o read. We do not in any way vouch for their authenticity, but give them | Corea should fall under the control of a as they have reached us, as little more than speculation, perhaps, though based on partial knowledge. It is believed that the Dorean gendamerie, referred to in the Convention between Li Chung-t'ang and Count Ito, are to be drilled by a Russian officer or officers. Post-roads will no doubt be made in Corea, between certain points ! of great importance to the Russians We may also expect to hear that a Corean Consulate is to be established at Vladivostok : the opening of the T'u-men river will, no doubt, be secured and telegraphic communication established with Viadivostok and such other places as may be necessary. The first of these pussible provisions opens the door to the introduction of Russian influence of all kinds among the Coreans, a poor, ignorant, and weak people. Foreign military instructors can acquire little or no influence in such independent countries as China and Japan, but the case is very likely to be different among such a backward people as the Coreans. The designs which Russia is known to cherish for the acquisition of Port Lexereff shoul! have prevented a of commerce, and these she wishes to eleven of the quoted companies have passed prodent Corean negotiator from handing over the instruction of his soldiery to mintary officers of the nation which threatens

the very life of his country. The establishment of a Consulate at Vigelicostok, near where there are thousands of Coreans, is to be regarded as a set-off, an apparent concession made to the native Government of these immigrants, but will not be allowed to interfere with the Russian control of of Possiet, which is near its mouth. Noin Russian hands, and will be a most imtogether in political union the three most important Eastern Powers.

(North-China Herald.) The points in the Russian Treaty with Corea with which we were furnished a few Tokio an opportunity for the display of the days ago, were, it would now appear, much short of the true scope of that document. It seems that the Russian diplomatist has succeeded in obtaining a secret Treaty by which the Protectorate of the Ozar is THE SHANGHAI SHARE MARKET established over the Peninsula. Is it too late for them to take action together to restore their neighbour to independence ! To overron Corea with troops and to seize important positions is not the work of a day. Months would be required for the purpose. But we were lately informed that Russia has not many troops in the north which she could spare. The difficulties with England may recommence at any time. No considerable withdrawal of troops from the Siberian possessions will be thought of while there is a possibility of China resenting this Corean Protectorate. The probability therefore is that the Russian Treaty will remain a paper, and nothing more, for some time. That interval should be used by both China and Japan to procure its cancellation. As a matter of policy England, Germany and France should support their action; for it is not to the interest of any nation that military Power Among other things, that would involve additional armaments out here, and these all should endeavour to lessen instead of increasing them. It does not follow that because our Government has been forced to purchase Port Hamilton the English taxpayers will consent to its being maintained as an eastern Gibraltar. Such support as our presence there gives : China and Japan cannot yet be reckoned as permanent: and the Governments of these two countries should, therefore, see to their own strengthening.
